

ZHAOYUAN FANG

zhaoyuaf@andrew.cmu.edu \diamond zfang399.github.io

EDUCATION

Carnegie Mellon University
M.S. in Robotics

Aug. 2020 - Aug. 2022 (expected)
GPA: 4.17 / 4.0

University of Notre Dame
B.S. in Electrical Engineering and Mathematics
Dean's List, All semesters
Sorin Scholars Program

Aug. 2016 - May 2020
GPA: 3.98 / 4.0 (*summa cum laude*)

RESEARCH EXPERIENCE

Carnegie Mellon University RPAD Lab
Advisor: Dr. David Held, Dr. Hang Zhao

Pittsburgh, PA
May 2019 - Aug. 2019

- Evaluated techniques for generic 6-DoF object pose estimation for completely unseen objects in the wild; developed and implemented a modular data loader for popular object pose estimation datasets.
- Reformulated the audio-visual alignment problem and proposed an end-to-end trainable unifying solution for multiple tasks including dance-music alignment and speech-lip synchronization.

University of Notre Dame Computer Vision Research Lab
Advisor: Dr. Adam Czajka, Dr. Kevin Bowyer

Notre Dame, IN
Jan. 2018 - Aug. 2020

- Designed a robust iris presentation attack detection method; employed photometric stereo based on the difference of reconstructed 3D normal vectors of irises with and without textured contact lens.
- Constructed computer vision based biometrics authentication systems; implemented automated multi-illumination iris image collection, presentation attack detection model, and interactive user interface.

University of Notre Dame iCeNSA
Advisor: Dr. Nitesh Chawla

Notre Dame, IN
Jan. 2019 - Jan. 2020

- Systematically investigated the possibility of using network representation learning for the imbalance classification problem; studied the impact of different graph constructions, random-walk schemes and sampling methods on the separation of majority and minority embeddings.

Argonne National Laboratory
Advisor: Dr. Chen Chen, Dr. Dongbo Zhao

Argonne, IL
May 2018 - Aug 2018

- Designed a novel load identification method for non-intrusive load monitoring (NILM) for better energy conservation; formulated a new state transition classifier that boosts classification performance
- Collaborated in a load modeling project to explore new techniques for demand-side energy management

University of Notre Dame Nanophotonics Lab
Advisor: Dr. Anthony Hoffman

Notre Dame, IN
May 2017 - May 2018

- Conducted interdisciplinary research across materials and optical science to establish the foundation for new optoelectronic device; investigated fundamentally new ways to engineer the optical properties of candidate phononic materials.

GRANTS AND AWARDS

The Basil R. Myers Award for outstanding Engineering graduate	2020
Center of Career Development Pucillo Family Fund \$3,500	2019
Best use of external data award, ASA DataFest 2019 at Notre Dame \$1,000	2019
Center for Undergraduate Scholarly Engagement (CUSE) Conference Travel Grant \$1,000	2019
Tau Beta Pi (TBP) Engineering Honor Society	2018
Eta Kappa Nu (HKN) Engineering Honor Society	2018
Top 15%, ACM-ICPC East Central North America Regional Contest	2018
Top 20%, ACM-ICPC East Central North America Regional Contest	2017
Center for Nano Science and Technology Undergraduate Research Fellowship \$5,200	2017

SKILLS

Programming skills: Python, C++, MATLAB, \LaTeX
Version Control: Git
Framework / Libraries: PyTorch, OpenCV, NetworkX
Languages: English (fluent), Chinese (native)

EXTRACURRICULAR

President of Notre Dame Kung Fu Club	2017-2020
Vice President of IEEE Delta Sigma Chapter	2018-2019
Vice President of IEEE Eta Kappa Nu (HKN) Honor Society Delta Sigma Chapter	2018-2019
